

Multi Ops®

C4 LED Technology / UV LED / Laser Pointer

Case Material: Corrosion and water resistant, anodized machined aluminum alloy.

Dimensions: Length: 5.38 in (13.69 cm) Major Diameter: 1.57 in. (3.98 cm) Body Diameter: 1.17 in. (2.98 cm)

Weight: 7.04 ozs. (200 grams) – with batteries

Lens: Unbreakable glass

Light Source: C4 LED, shockproof with a 50,000 hour lifetime.
(5) Nichia 390 nm UV LEDs. Pre-focused visible red laser

Light Output: C4 LED: 2,500 candela peak beam intensity; 50 lumens
LED Rating: 390 nm wavelength
Laser Rating: 650 nM wavelength, Class IIIa (3R), <5 mW laser output power

Laser Output: Useable range of 100 feet (+) when in Laser/Xenon position
Useable range of 100 yards (+) when using laser pointer only

On/Off: Rotary mode-select switch, On/Off: Tailcap

Run Time: 4.5 continuous hours to the 10% lumen output level

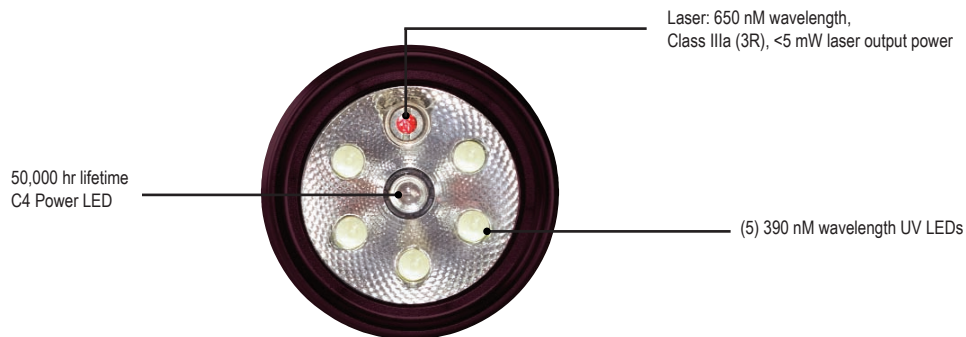

Battery: Three “AAA” alkaline batteries (included)

Features:

- Micro-faceted reflector for smooth focus
- O-Ring sealed
- Water resistant
- Heavy duty drop-tested construction
- Wrist lanyard

Approvals: Most models meet applicable European Community Directives.

Warranty: Limited lifetime warranty.
