STREAMLIGHT®

INTERNATIONAL MILITARY
PROFESSIONAL-GRADE ILLUMINATION TOOLS

STREAMLIGHT LIGHTING THE WAY FOR 50 YEARS

1973 — Streamlight founded by engineers who created solar simulators for NASA.

1980 — LiteBox® lantern invented by Streamlight.

1989 — Streamlight introduces the Survivor® line. Still the world's #1 right-angle rechargeable flashlight.

1998 1999 — Vulcan®, Stylus® and Propolymer® series debut.

2001 — Streamlight leads the market with innovative LED lighting products.

2003 — Streamlight combines LED and Xenon lights in patented Twin-Task® series. New Tactical line premieres featuring Super High Flux LEDs. Fire Vulcan aids firefighter safety as the first lantern with LED tail lights.

1973

1975 — Rechargeable halogen lamp flashlight introduced by Streamlight.

MID 1980's — Variety of miniature flashlights introduced.

1994 — Stinger® series introduced – becomes the standard duty light for law enforcement. Streamlight creates the Scorpion®, lithium-powered, lightweight flashlight with rubber grip.

2000 — Streamlight builds state-of-the-art manufacturing facility/corporate headquarters in Eagleville, PA.

2004 — Streamlight introduces Strion®, the world's first ultra-compact rechargeable. At just 130g, it shines as bright as lights 5 times its size.

2

2005 FireBox® is introduced with bright blue LED tail lights that help firefighters be seen in heavy smoke.

2007 Dual-switch Stinger DS® debuts. Streamlight creates a million candela (Peak Beam Intensity) lantern – the HID LiteBox®, with a beam that reaches 12.414 kilometers. The Sidewinder® debuts as the most versatile military light, with multiple LEDs and varying brightness levels for each.

2009 Streamlight introduces the Strion® LED, creating the first lithium ion rechargeable gun-mounted and hand-held tactical light. The new PolyStinger® LED becomes our first rechargeable polymer body LED flashlight.

2017 The Vulcan® 180 is launched. Designed to burn brighter and run longer, it is an essential fire fighting and utility tool. This rechargeable, waterproof lantern/scene light has a 180° tilting head to direct the light where needed.

2006 Streamlight introduces our first aluminum gun-mounted lights, TLR-1® & TLR-2®. LED versions of the Stinger® and Survivor® are created.

2008 C4® LED technology introduced to multiply the brightness of LEDs up to three times. Streamlight expands headquarters and manufacturing facilities with 75,000-ft. addition.

2014 Streamlight introduces the Portable Scene Light with a 182.88 cm extension pole designed to rapidly deploy and easily stow.

2016 Streamlight launches MULTI-FUEL technology that allows the user to swap standard lithium batteries with our SL-B26® USB rechargeable battery pack to turn their ProTac® 2L-X and ProTac® HL-X into rechargeable lighting systems.

2020 The Stinger® 2020 is the next evolution in high-performance flashlights - produces 2,000 lumens. Its anti-roll design is ergonomically shaped for a sure grip. It features dual power switches and an intuitive mode selector switch for ease of use.

2023

NEW PRODUCTS

IT'S WHAT WE DO.

Since 1973, Streamlight has delivered effective, efficient high-performance lighting solutions. The latest technology delivers unmatched performance, unheard of durability and incredible value. We've earned our reputation one customer at a time. And we're not about to let up now.

NEW

SIDEWINDER... THE **MOST VERSATILE** **MILITARY LIGHTS** IN THE WORLD

SIDEWINDER STALK®

Designed to minimize the number of illuminators and beacons an operator must carry, the low-profile Sidewinder Stalk provides ultimate maneuverability. Put light where you need it with multiple mounting options and a flexible stalk to aim the beam.

Features white, multi-colored and IR LEDs along with an IR/IFF beacon.

BATTERIES: (1) CR123A, (1) "AA" alkaline or (1) "AA" lithium
SIZE: 14 x 2.18 x 4.60 cm
WEIGHT: 72.57g w/CR123A battery and Loop and Hook adapter // 81.65g w/AA battery and Loop and Hook adapter
COLOR: Coyote & Black

White, red, green, blue and IR LEDs

14308	Sidewinder Stalk - Includes helmet clip, E-Mount, CR123A & "AA" alkaline batteries – Coyote – Box	US	YES

Rotary mode selector switch (White, red, green, blue and IR)

IR/IFF beacon
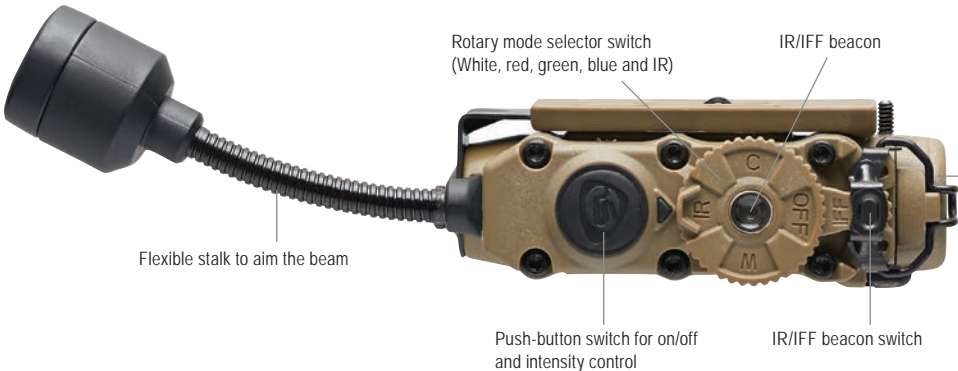

Uses "AA" alkaline battery CR123A (both included)

Also accepts "AA" lithium batteries for extended operation in extreme temperatures

Sidewinder Stalk does not need to be removed from mounted position in order to change batteries

Flexible stalk to aim the beam

Push-button switch for on/off and intensity control

IR/IFF beacon switch

The Sidewinder Stalk can be configured to mount on any type of combat, vehicle crew or aviation helmet system and/or MOLLE vest platform.

TLR-6®

ULTRA-COMPACT LIGHTS FOR COMPACT, SUB-COMPACT & CONCEALED CARRY WEAPONS

TLR-6® RAIL MOUNT

Designed to securely attach to the rail and the trigger guard of GLOCK® compact railed handguns, SIG SAUER®, Springfield Armory® XD®, XD(M)® and M&P® standard and compact railed handguns. The compact TLR-6 Rail Mount weapon light with LED and integrated red aiming laser features tool-less battery replacement without removal from the weapon or the need to re-sight the laser. The light provides 1 hour of regulated runtime when in dual light/laser mode. Durable, Impact-resistant polymer construction.

TL-RACKER®

The compact, lightweight all-in-one integrated shotgun forend light. Replace your weapon's forend with the TL-Racker featuring a bright 1,000 lumen LED light in a sleek design that eliminates the need for remote cords, reducing snag hazards. Its ergonomic design provides maximum grip and easy switch access for momentary and constant on. The elongated switch pad accommodates virtually any hand size. Uses two CR123A lithium batteries. Its customized optic produces a concentrated beam for multiple applications. Ideal for shotgun breaching, close quarter operations or elevating home defense options. IPX7-rated; waterproof to 1 meter for 30 minutes.

SL-B26® PROTECTED LITHIUM-ION USB RECHARGEABLE BATTERY PACK

The battery that transforms multi-fuel, high-performance lighting tools into rechargeable systems. USB rechargeable - Features micro-USB input & charge status indicators; charges in 5 hrs. Integrated safety circuit protects battery from overcharge. Charge via USB source, optional charge cradle or bank charger for departmental use.

ITEM #	DESCRIPTION
22101	SL-B26 Li-Ion USB rechargeable battery pack - 1PK
22102	SL-B26 Li-Ion USB rechargeable battery pack - 2PK
22104	SL-B26 Li-Ion USB rechargeable battery pack - 2PK - Box
22105	SL-B26 Li-Ion USB rechargeable battery pack - 8PK
22100	Li-ion Charge Cradle
22010	Li-ion Battery Pack Kit - USB cord, 2 SL-B26 battery packs
22011	Li-ion Battery Pack Kit - 120V AC, 2 SL-B26 battery packs
22070	101 cm Micro USB cord
22081	55.88 cm Micro USB cord
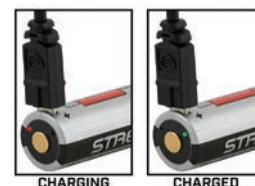

Features integrated USB port. Charge status LEDs:
Red = charging   Green = charged

BATTERY CAPACITY: 2600mAh SL-B26 protected Li-Ion USB rechargeable battery pack
BATTERY SIZE: 0.7 x 1.89 cm
BATTERY WEIGHT: 48g
CRADLE SIZE: 11.4 cm
CRADLE WEIGHT: 68g

Charger temperature safety circuit prevents damage to batteries while charging.

EIGHT-UNIT SL-B26 BANK CHARGER

Charge up to eight batteries with Streamlight's lithium-ion battery bank charger in 5.25 hours. Each charge bay securely holds the battery in place - ideal for mounting on trucks. Low-profile housing (2.54 cm) requires minimal mounting area. Charge indicators over each battery: Red = charging // Green = charged. Charges with or without optional charge cradle. Use the charge cradle for storage as well as to charge your batteries.

NFPA Meets requirements of NFPA 1901-14.1.10.2 (2016); mounted in upright position

BATTERY CAPACITY: 8
SIZE: 26.54 x 12.06 x 2.54 cm
WEIGHT WITH BATTERIES: 216g
WEIGHT WITHOUT BATTERIES: 592g

SPEEDLOCKER® /// NEW

The SpeedLocker is a portable, locking storage container that provides you with swift and direct access. Mechanical keypad with one-handed entry keeps your personal items secure at home or at work. Rugged, water-resistant construction with convenient carry handle is designed for travel making it an ideal companion wherever you go.

The SpeedLocker accommodates various firearm sizes. It's important to note that the SpeedLocker is not a gun safe; however, it effectively limits unauthorized access while ensuring your essentials remain within easy reach.

INTERNAL: 30.48 x 20.32 x 6.985 cm
EXTERNAL: 20.3 x 18 cm
WEIGHT: 1.18kg
COLOR: Black

ITEM #	DESCRIPTION
59000	SpeedLocker - Includes padlock and Allen key
59001	Padlock with 3 keys

The SpeedLocker® is not an approved firearm safe. It is the user responsibility to determine the suitability to the specific situation and need.

Accommodates firearms up to the size of a Glock® 19 with TLR-1 series attached

Patented mechanical keypad with 31 user selectable combinations - requires no batteries

Air travel suitable with supplied padlock

// COLOR-RITE TECHNOLOGY®

// WHAT IS COLOR-RITE TECHNOLOGY?

Color-Rite Technology is based on the Color Rendering Index (CRI) -- a scale from 0-100 that indicates how a light source reflects color variations as they appear to the human eye. The higher the CRI, the more vibrant the colors appear. On the scale, lights that measure 90+ are considered "high" CRI lights and are critical for tasks requiring the most accurate color discrimination. A perfect 100 would enable us to see colors as they appear in natural sunlight.

// WHY STREAMLIGHT COLOR-RITE TECHNOLOGY?

Flashlights equipped with Streamlight's proprietary Color-Rite Technology allow users to see the color spectrum as they would in natural light. While a standard high-lumen LED light produces an ultra-bright white beam that is needed in many applications, it prevents seeing subtle color differences in, for example, auto body paint colors or electrical wiring. In contrast, a high CRI light provides a softer, warmer beam to prevent color "washout," allowing the user to see specific colors or imperfections and subtle details, regardless of the task.

// COLOR-RITE® APPLICATIONS FOR EVERY SITUATION

Streamlight offers a family of Color-Rite lights for situations that require detailed inspections or color differentiation. For markets as diverse as automotive, industrial, law enforcement, military and even outdoor recreation, we have developed high CRI lights with Color-Rite Technology® for a wide variety of tasks that require exacting attention to detail. From repairing electrical wires to inspecting paint finishes or examining forensic evidence, count on Streamlight's Color-Rite products help get the job done efficiently and safely. Our family of Color-Rite products include the following:

STINGER® COLOR-RITE®

Rechargeable, warm white (3,000K) 90 CRI LED with Streamlight's Color-Rite Technology®

DUALIE® 3AA COLOR-RITE®

Intrinsically safe multi-function dual beam flashlight with a cool white LED and a warm white (4,000K) 90 CRI LED with Streamlight's Color-Rite Technology®

STINGER SWITCHBLADE®

Five lights in one:
Drop Light | Hands-Free | White Light |
Color-Rite® Light (4,000K) | UV Light

STRION SWITCHBLADE®

Five lights in one:
Drop Light | Hands-Free | White Light |
Color-Rite® Light (4,000K) | UV Light

SYCLONE®

Ultra-compact work light with a cool white LED and a warm white (4,000K) 90 CRI LED with Streamlight's Color-Rite Technology®

FLIPMATE®

Compact work light with cool white LEDs and warm white (4,000K) 90 CRI LEDs with Streamlight's Color-Rite Technology® - each with high and low modes

// A LIGHT FOR EVERY SITUATION

// COLOR-RITE® APPLICATIONS BY MARKET

LAW ENFORCEMENT/MILITARY

- **Improve tracking in low-light conditions.** High CRI lights like the Stinger® Color-Rite® help border patrol and other law enforcement agencies reveal subtle details of tracks and other markings that white LEDs with their bright "hot spots" can miss.
- **Detect trace evidence.** Forensic teams can more clearly spot fingerprints, fibers and other trace evidence on glass and other slick surfaces with high CRI lights such as the Stinger® Color-Rite®.
- **Enhance visualization.** High CRI lights can help cut through murky lake or ocean water, thick smoke or fog, and even heavy dust when pursuing vehicles in rough terrain.

AUTOMOTIVE

- **Match and identify colors.** The Dualie® 3AA Color-Rite®, FlipMate®, Stinger Switchblade®, Syclone® and Strion Switchblade® are ideal for color matching and identifying body imperfections before and after paint repairs.
- **Identify defects.** Paint defects such as swirl marks and color sanding scratches are easily identifiable with high CRI LEDs.
- **Distinguish colors.** When troubleshooting electrical short circuits or other motor vehicle repairs, high CRI lights assist in differentiating colored wires in hard-to-see areas under a hood or carriage.
- **Reduce glare when working in tight spaces.** Because high CRI LEDs reflect back less light than bright white LEDs, mechanics can see greater detail when working in dark, hard-to-reach places underneath a car or under the hood.

INDUSTRIAL

- **Differentiate wire colors in electrical panels.** In plants and other facilities, high CRI lights like the Dualie® 3AA Color-Rite®, FlipMate® and Syclone® provide better color contrast of intricate wires in electrical cabinets, helping technicians to work more efficiently.
- **Spot imperfections**. High CRI lights allow for contrast of color to identify imperfections in finish inspections of products, including parts.
- **Reduce eye fatigue.** The soft lighting of high CRI LEDs reduces eye strain and fatigue for many users.

FIRE/RESCUE/EMS

- When responding to fires, accidents or other events under low light conditions, high CRI area lights such as the Dualie® 3AA Color-Rite®, Stinger Switchblade®, and Stinger® Color-Rite® can be essential tools, permitting first responders **to see the color spectrum as they would in natural daylight**.
- High CRI lights also allow investigators to **see specific colors, imperfections and subtle details** when examining fire or accident scenes and gathering evidence.

OUTDOOR RECREATION

- **Identify blood trails.** State-of-the-art blood trailing technology in high CRI lights, such as the Stinger® Color-Rite®, reduces certain colors in the spectrum to better amplify blood trails.
- **Visualize in low-light conditions**. Hikers and other outdoor enthusiasts use high CRI lights like the Dualie® 3AA Color-Rite® to better see obstacles when navigating trails at night and under other low-light conditions.

STINGER SWITCHBLADE®

The Stinger Switchblade rechargeable area light is five lights in one: a droplight, hands-free light, UV light, bright white light and a warm white (4000K) high CRI light with Streamlight's Color-Rite Technology®. The blade of the Switchblade can rotate 180° on the body. Soft detents will hold the blade in your desired position, and the light will stand on its tail with the light bar in any position. There are multiple ways to hook and hang the light. Use the hooks on the base plate or the retractable hook for many hanging options. The weighted base also includes magnets that will hold the light (in any orientation) to provide task-specific illumination.

180° rotating light bar aims the beam where you need it.

STRION SWITCHBLADE®

Inspect, identify and repair with the Strion Switchblade. It's five lights in one: a droplight, hands-free light, UV light, bright white light and a warm white (4000K) high CRI light with Streamlight's Color-Rite Technology®. Lithium-ion battery charges in 4 hours. Charge using existing Strion chargers or USB source. You can work harder for longer with the PiggyBack® charger and easy-to-change battery - just twist off the endcap, replace and go.

180° rotating light bar aims the beam where you need it.

61502	FlipMate - Includes USB cord - Blue

BEARTRAP®

Inspect, identify and repair with the multi-function BearTrap worklight. High power with big performance. It produces bright white light in both spot and flood modes.

Go hands-free - it clamps virtually anywhere or stands on its own, allowing you to illuminate hard-to-get-to spaces like under the dash; also features a magnetic base and stowable hook.

Tough thermoplastic construction. Chemical-resistant lens - withstands most common automotive chemicals. IPX4-rated; water resistant; 1m impact resistance tested.

THE SIEGE®

The Siege is brighter, more durable, and much more versatile than other emergency/camping lanterns. It's bright enough to light up a whole campsite. It runs for over 30 hours on high and over 12 days on low! Its handle and D-rings allow you to hang it or clip it almost anywhere, upright or inverted. It has 3 white light settings, a red light for softer, less intense light, and an SOS mode. Remove the top for brighter light. Battery indicator flashes to alert you to low battery. Waterproof to 1m; it floats.

44952	Magnetic Accessory Base - Black

SUPER SIEGE®

The Super Siege rechargeable scene light/work lantern provides 360° of bright light that illuminates an entire scene. A rechargeable lithium-ion battery supplies the power to charge your Streamlight flashlights, smartphones and tablets. Remove the globe cover and hang the Super Siege upside down by its D-ring for large area lighting needs. Use the Glare Guard™ to shield light from 1/2 the globe for up-close task lighting. Set it to SOS mode for emergency situations. Working in a grueling environment? No problem! Its rubber base keeps it stable on slippery or uneven surfaces, and a watertight storage compartment keeps small items dry. IPX7-rated; waterproof to 1m. It floats.

A small dry storage area is provided in the light's base for all your "keep dry" needs

SIEGE® AA

The Siege AA features white LED and red LEDs for scene lighting, low level lighting or SOS mode. There are five output modes and a battery level indicator built into the power button. With the outer lantern globe in place, the Siege AA will float. Remove the outer globe and hang the body upside down by the D-ring for large area lighting needs. Battery replacement is a breeze with the center post orienting the battery cover correctly every time.

PORTABLE SCENE LIGHT // PORTABLE SCENE LIGHT EXT

The Portable Scene Light provides rapid deployment on site, and it goes anywhere. With its 90° swivel neck, it's easy to shine light into the most out-of-the-way place. The head extends to full height within seconds. It provides 3 levels of lighting and substantial run time to last through several shifts, even days. The unique diffuser lets you select a flood or spot beam in all three levels. It's designed to adapt to tight spaces, but rugged enough to be stable in wide open terrain or steps.
