

TLR-4® GUN LIGHT

Lightweight and Compact Tactical Light with Integrated Red Aiming Laser

Lightweight rail-mounted light with red laser, constructed of an impact-resistant polymer, designed to fit compact and sub-compact handguns. It also fits most full-sized handguns with rails on the market. Now shining brighter at 170 lumens!

- White 170 lumen LED and red laser for long-range targeting
- 3 modes: White LED only, Red laser only, or both LED and Red laser
- Runs 1.5 hours to the 10% output level (LED only or LED and laser); 15 hours (laser only)
- Compact – Weighs 2.81 oz (79.7 g) with included battery; 2.73 in (6.93 cm) long
- Key kit included for mounting to a variety of weapons (H&K USP models do not include key kit)
- Rail clamp designed to rapidly attach/detach from side of weapon. One handed snap-on and tighten interface keeps hands away from muzzle when attaching/detaching
- Windage and elevation adjustment screw mounted in bushing for dependable zero retention of laser
- Ambidextrous momentary/steady On-Off switch
- Uses one 3V CR2 lithium battery (included)
- Impact-resistant polymer construction with durable anodized aluminum facecap
- BOROFLOAT high-temperature glass lens
- IPX4 water-resistant
- Serialized for positive identification
- Models also available for H&K USP Compact frame and H&K USP Full Size frame
- Limited lifetime warranty
- Assembled in USA

The silver band that encircles the head of the TLR-4 is a trademark of Streamlight, Inc.

We do not recommend carry of a TLR equipped firearm without a proper holster. A proper holster should fully cover the trigger guard area, preventing accidental discharge of both the firearm and light.
